

Green County Fair Animal Number Reporting Guide

Again this year, all clubs or chapters with animal exhibitors in departments 1-5, 7-8; need to report their animal/pen counts directly to the lead superintendents in each department. Organizational leaders (Ag. Advisors/Adult Leaders) may choose to delegate this responsibility to lead species contact for their club/chapter to take on the responsibility for gathering this information and contacting the lead superintendent.

The information requested below MUST be reported to the lead superintendents by the DEADLINE OF **Monday, June 20, 2025**. Do NOT contact the Extension or Fair Office with this information. Each Superintendent needs specific information to their department, so directly contacting the lead superintendent will lead to more accurate information gathered and questions answered. Along with the specified information under each department below, please be sure to include: Club Name, Exhibitor Name, and your Phone Number. Please be sure to leave a message if they are unable to answer!
